#Operation LoneStar

TXARNG Soldiers are enhancing their capabilities along the Texas border with the deployment of the Modular Mobile Surveillance System. (M2S2). The M2S2 is an all-terrain truck with which operates under the cover of night, thanks to its low-light, high-definition camera, infrared camera and radar.

EL PASO, Texas – Texas National Guard Engineers, along with partner agencies, reinforce anti-climb barriers along the Rio Grande River to prevent illegal border crossings.

Camp Charlie, Eagle Pass TX

Texas National Guard Soldiers assigned to TF-West deployed in El Paso Texas, recently took part in the ATV training course held at Base Camp Charlie in Eagle Pass.

The ATV course teaches the safe and responsible operation of all-terrain vehicles (ATVs) with both classroom and hands-on training. Some topics covered in ATV courses include:

- Safety gear: The importance of wearing safety gear, such as helmets, goggles, long sleeves, long pants, over-the-ankle boots, and gloves
- Riding techniques: How to start, stop, turn, negotiate hills, and ride over obstacles
- Riding in different terrains: How to ride in mud, slick rock, gravel, ruts, and water crossings
- Pre-operation inspection: How to inspect the ATV's controls, engine, drive train, tires, wheels, and suspension systems

The OLS Task Force Command provides all the training courses and training opportunities that are needed to help our Soldiers adapt to the ever-changing situations that they encounter on the OLS Mission.

NEWS UPDATE

[The Weekly Reset, pt 1 of 2](#) By: Chaplin McKay

The American way of life does violence to our souls...speed, accomplishments, productivity, perpetual stress, connectedness, efficiency, activity with a constant background noise of information and entertainment. We are seldom at rest.

I believe one of the simplest and hardest things we can do to replenish our body, soul and spirit is to practice the habit of weekly sabbath. Most major religions emphasize the need to withdraw weekly to reconnect with life's most important priorities.

Keeping the sabbath is getting into a sustainable rhythm of life. All around us are rhythms – circadian, seasons, hormonal, daily earth rotation of sunset, moonrise, etc. Many scientists believe we are to live in rhythmic awareness – to work and then rest, to be engrossed and then detached, be in and then step out. We can live without our inner rhythm – always going, always on, always available – but remember that no living thing lives like that.
