DUTIES AND RESPONSIBILITIES:

Formulates, implements, and maintains activities for the Wing necessary to the overall management of a diverse weapons safety program. Work involves planning, directing, coordinating, and evaluating operations and conditions affecting a complex multi-mission installation, tenant command organizations and geographically separated units involved with complex nuclear surety, explosives, chemical, directed energy, range, and missile safety plans/programs.

Organizes and prepares for external agency visits and inspections from MAJCOM and DoD. Ensures and performs quarterly, annual, periodic, and high-interest inspections, evaluations, assessments, and surveys of multi-missions for the following areas, facilities, equipment, operations to include munitions maintenance, loading/unloading explosives, munitions handling, weapons firing ranges, combat training, sited explosives storage area, operational explosives storage locations, nuclear certified equipment, energetic liquids, and directed energy weapons.

Plans, directs, and conducts investigations and analyzes mishaps based on interpretation and/or adaptation of higher command instructions and policies formulated by federal government agencies relating to conventional, nuclear, and chemical, and directed energy weapons and explosives operations involving substantial and diverse hazards with potential for significant severity and loss.

Develops supplements to instructions and manuals defining mishap prevention. Ensures supplemental guidance is developed for weapons handling, use and storage procedures based on adoption of higher command instructions and policies.

Develops and submits explosives site plans and reviews specifications for Military Construction projects, major facility alterations, and/or changes in installation equipment and monitors project through completion to ensure compliance with safety codes and standards.

Develops and provides technical weapons safety training/instruction to supervisors, employees, and/or unit Additional Duty Weapons Safety Representatives on a wide range of work operations areas, such as risk assessment, proper storage of energetic liquids and hazardous materials, transportation, handling, mishap reporting and investigating, inspections, directed energy and range safety processes, development and review of lesson plans and procedures, and the nuclear certified equipment procedures.

Performs other duties as assigned.
