CHAPLAIN'S CORNER

Luke 6:40 - "A disciple is not above his teacher, but everyone when he is fully trained will be like his teacher."

Serving in uniform is indeed a unique calling, one that emphasizes leadership at every level. In the military, we understand that every Soldier has the potential to lead, just as every disciple of Christ is called to reflect the character of our Teacher. The scene from *We Were Soldiers* illustrates this beautifully: when faced with a training scenario by the chopper when Mel Gibson says, "he is dead, and now your dead, you are next man up." The reality of leadership, we must be prepared to step up, make decisions, and guide others. This readiness is not just a skill, but a mindset rooted in training and growth. In our Christian journey, being a disciple means committing to learn, adapt, and grow so we can effectively lead others in faith, much like we lead in our duties. Each of us is called to stand in the gap, not only for those we serve with but for our families and communities.

JRMS Message:

"Joint Readiness Management System (JRMS) is a TMD developed software application developed to manage accountability and pays account for personnel on State Active-Duty (SAD) missions. JRMS' goal is to be considered as a replacement to the current accountability and pay systems. JRMS is currently in its first round of BETA testing also known as "parallel testing", phase with its biggest pilot audience being with Operation Lone Star and BorderStar are the current test audiences. As the TMD continues to develop this product for review and final decisioning, all official accountability and pay management records for SAD will continue to be managed through the current approved source of record until further guidance from TMD Leadership."

ViQue Message:

"The ViQue scanner system supports JRMS by enabling digital scans of authorized IDs. ViQue scanners are a separate tool that can be used in conjunction with JRMS to allow for expedited daily accountability intake. Accountability for SMs who are unable to scan in due to lack of availability of a Vique System in their AOR, lack of internet connectivity or any status in which they are not physically present to scan in such as "telework", "on pass", "on quarters" or etc. can be manually entered into JRMS by the clerk. from JRMS. It is not a clock-in system and can be updated manually if needed. Guidelines on how ViQues scanners will be incorporated with each unit or taskforce is based on unit policy and procedures."
