CHAPLAIN'S CORNER

Reflection: What is one thing you can do today to make a lasting impact?

Recently I was reading a new book *Trust and Inspire*, by Stephen Covey. This book uses recent leadership authors to show the shift from the carrot and stick approach to leadership, to a trust and inspire method. Just as we have outgrown home telephones with cords and answering machines, so have we discovered better ways, more effective ways of leading people. In these troubled times, we don't need more command and control; we need better means to engage everyone's intelligence in solving challenges and crises as they arise." Margaret Wheatley. While serving on this mission, let us be reminded and thankful for all that are willing to serve this nation and this state. What an honor to serve alongside others that are willing to give up so much. In the book of Matthew, we find the two most important commandments, Love God, and love others. My challenge for us today in the dynamic and evolving world we find ourselves in, to remember to love our creator, and to love others. For when we truly love others, we can let go of the old way of the carrot and the stick and move into a better way of leading by creating trust and inspiring those we lead, at home and in uniform.

Redeployment Moved to FOB Eagle

Above: COL Hildebrand conducts an open floor.

Redeployment events have transitioned to Forward Operating Base (FOB) Eagle as part of the routine End of Mission (EOM) process to ensure service members are fully supported while preparing for reentry into civilian life. FOB Eagle is a fully supported community including meals, laundry, a gym facility, and private housing, all designed to provide comfort and convenience during this important phase.

This adjustment consolidates essential resources in one location, making them more accessible to personnel and streamlining the redeployment process. It also creates opportunities for Operation Lone Star (OLS) command and special staff to meet with troops in person to provide information. Resource Coordinators will be on site to assist with ongoing support services.

This transition phase is focused on ensuring every service member receives the support they and their families deserve when they return home.

As our troops conclude their service with OLS, we want to express our deepest gratitude for their dedication and unwavering commitment to the communities of the great State of Texas.

Thank you for your service.

APRIL IS ALCOHOL AWARENESS MONTH

BE INFORMED

38% Among those who were given, rather than purchased, alcohol, the most common source was an unrelated person age 21 or older.

Underage alcohol use can cause alterations in the structure and function of the brain, which continues to mature into the mid to late twenties, and may have long term consequences.

Alcohol is a factor in the deaths of approximately **4,700** young people in the United States per year, shortening their lives by an average of 60 years.

Take our online alcohol training program, Iowa Program for Alcohol Compliance Training.

IowaABD.com/I-Pact

It takes 20 minutes to take your kids to school; use **5** of those to talk with them about underage drinking.

8% of high school students reported driving a car one or more times when they had been drinking.

24% Reported riding in a car driven by someone who had been drinking.

Parents are the leading influence in their kid's decision to drink - or not to drink - alcohol.

“PEOPLE WHO START DRINKING BEFORE AGE **15** ARE **5X** MORE LIKELY TO DEVELOP ALCOHOL DEPENDENCE OR ABUSE LATER IN LIFE”

ADOLESCENTS AND PARENTS

KNOW YOUR LIMITS

Alcohol affects people differently based on: gender, weight, age, type and number of drinks consumed, and time elapsed.

HOW DOES ALCOHOL AFFECT YOU?

FEMALE

In 2011 **ONE IN THREE** Traffic deaths involved alcohol.

In 2011, **83** people died in drunk driving crashes, accounting for 23% of traffic deaths that were drunk driving related in Iowa.

Parents are the most important driving instructors for teens.

161 Impaired driving arrests are made every hour in the U.S., one person still dies every **51** minutes because someone chose to drive drunk.

Alcohol related deaths decreased 2.4% from 2011 to 2012.

2.4%

The number of Iowans arrested for first time operating while intoxicated offenses increased.

TEENAGE DRIVERS

Learn. Act. Change.

What you say matters.

Every day, your words send a message about what you value and believe. When you stand up for survivors, you send a powerful message that you believe and support them.

Lots of different things shape our beliefs about sexual abuse, assault, and harassment.

- TV shows, movies, news reporting, and other forms of media might inform your views. Recognizing that media portrayals may be inaccurate and rarely tell the whole story is important.
- Think about where you've seen sexual violence shown or talked about. How could that have impacted your views or led to assumptions?

Your words affect others.

- Whether you know it or not, each of us knows people who are survivors of sexual violence. They might not have told anyone out of fear of being blamed or judged or not told you because they were not comfortable or didn't think you would take it seriously.
- If someone in your life is considering sharing something personal with you, they are listening to your opinions or attitudes for clues on how you will respond.

- A comment or joke based on assumptions or stereotypes might not seem like a big deal, but it could make someone feel unsafe about sharing personal or difficult things with you. This is also true for the things you like or share on social media – they can be signs to others about the attitudes and beliefs you have about sexual abuse, harassment, or assault.

For example, someone might think: “I could never tell her what happened to me. She makes comments online saying if victims of sexual assault don’t go to the police, then it wasn’t that serious.”

What can you do?

- Don’t wait for a critical moment to say the right things. The things you do and say every day are telling people your values.
- When you hear comments that blame victims or make light of sexual abuse, assault, and harassment, speak up so others know you disagree. Even if you don’t have a perfect response, challenging misconceptions and stereotypes sends the message that you believe survivors and you are a safe person to talk to.

For example: “That commercial made me uncomfortable. I think everyone should be treated with respect.” or “I don’t think that’s true — I believe people when they say that someone has hurt them.”

Your voice is powerful and necessary in changing attitudes and educating about sexual abuse, assault, and harassment. People listen to the things you do and speak. Your words and actions can tell people that you are safe to talk to and that you support and believe survivors.

Texas Department of Public Safety

Statement on Beaver and Roma Islands

DPS and TMD Release Joint Statement on Inaccurate Reports

AUSTIN – The Texas Department of Public Safety (DPS) and Texas Military Department (TMD) are aware of public reports that mischaracterize Beaver Island and Roma Island—two small islands along the Texas-Mexico border—as a “cartel-infested” “smuggler’s paradise,” “plagued by” rampant violence. These reports are inaccurate. Both DPS and TMD maintain operational control throughout the area where these islands are located. The State of Texas will never cede one square inch of its territory or allow terrorist organizations to gain a foothold to operate in the manner suggested by recent statements.

Governor Greg Abbott signed multiple Executive Orders designating dangerous cartels as foreign terrorist organizations. Also under Governor Abbott’s direction, DPS and TMD have carried out operations to clear islands actually “plagued by cartel violence,” like Fronton Island in October 2023. Texas continues to maintain robust law enforcement and intelligence capabilities along the border, working alongside the Trump Administration and U.S. Border Patrol to identify areas of concern and disrupt cartel activity before it proliferates.
