CHAPLAIN'S CORNER

The Wisdom of the Ant - Reflection: What is one small step you can take today toward your goals?

"Go to the ant, you sluggard; consider its ways and be wise! It has no commander, no overseer or ruler, yet it stores its provisions in summer and gathers its food at harvest." – Proverbs 6:6-8

Ants are small creatures, often overlooked, yet they demonstrate incredible diligence, teamwork, and foresight. Without anyone standing over them, they work tirelessly, preparing for the future with persistence and discipline. They don't wait for the perfect conditions or an easy path—they simply do what needs to be done, step by step, day by day.

There is something deeply inspiring about their work ethic. In a world that often seeks shortcuts or instant gratification, the ant reminds us of the power of consistency. Success, whether in our careers, relationships, or personal growth, is rarely built overnight. It comes from steady effort, small choices, and a commitment to keep going even when no one is watching.

Perhaps today you're facing a task that feels too big or a goal that seems distant. Instead of focusing on how far you must go, take a lesson from the ant—just start. Take one step. Do the work. Stay consistent. Over time, those small efforts add up to something great.

Diligence is not about exhausting ourselves but about moving forward with purpose. When we commit to the process, growth happens, and before we know it, the harvest comes.
