

Why take CPST? What's in it for you?

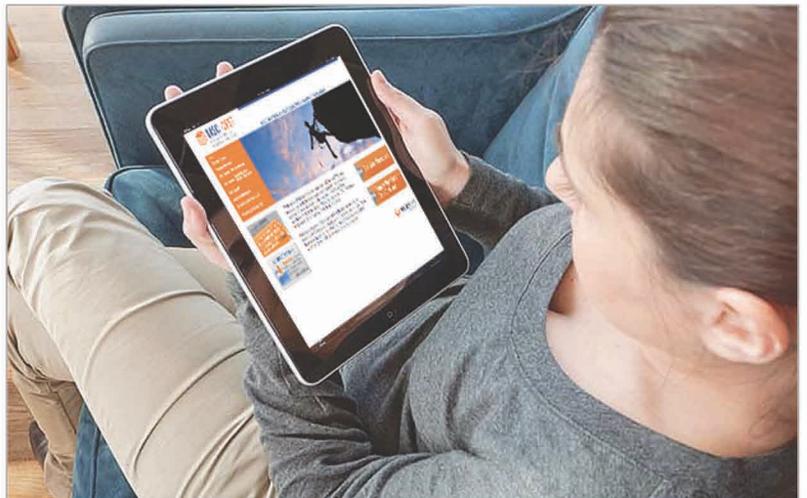

Peterson's College Placement Skills Training (CPST) was designed to determine your readiness for college-level courses, and to provide any targeted remediation you might need to improve your academic skills.

UNLIMITED ACCESS | SKILLS ASSESSMENTS | TARGETED REMEDIATION

No one wants to begin college behind. No one wants to have to take non-credit bearing classes. Go through CPST and you will be armed to sail through placement exams and get into the heart of your degree plan. Get your jumpstart now. All from the comfort of your room, your library, your education center, the park, the coffee shop—anywhere you have Internet access and *want* to study. What you need. When you want. Where you want. It's up to you. It's *for* you.

Ok, so you've been told that CPST and OASC have been made available for you 24/7, with unlimited access, free of any charges. So where are they?

CPST vs. OASC

CPST is aligned to the most used placement tests—Accuplacer and COMPASS. The course includes 4 diagnostic tests, 132 lessons, and 3 practice tests for writing, reading comprehension, grammar, arithmetic, algebra, and college-level math skills.

OASC is aligned to military standardized tests to help you score well and succeed in the military. The course includes 2 diagnostic tests, 71 lessons, 9 sections of practice questions, and 2 post-assessments for reading comprehension, vocabulary, arithmetic, and algebra skills.
