

Why take OASC? What's in it for you?

Peterson's Online Academic Skills Course (OASC) is designed to help you build your math and verbal skills to excel in your present job, and to increase exam scores to advance your career.

UNLIMITED ACCESS | SKILLS ASSESSMENTS | CAREER ADVANCEMENT

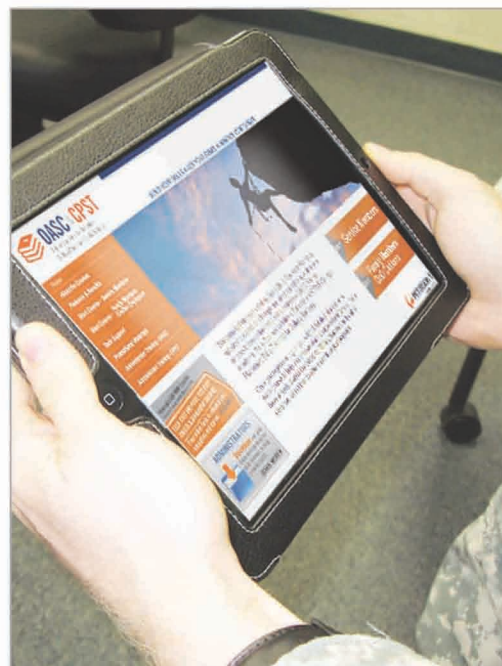

That's right—improve your military career! The course will diagnose your current level of

1. reading comprehension
2. vocabulary
3. math abilities

It will also teach the concepts and skills that are needed to increase proficiency in each of these academic areas. All in the comfort of your room, your library, your education center, the park, the coffee shop—anywhere you have Internet access and *want* to study. What you need. When you want. Where you want. It's up to you. It's *for* you.

Ok, so you've been told that OASC and CPST have been made available for you 24/7, with unlimited access, free of any charges. So where are they?

Go to www.nelnetsolutions.com/dantes and register.

OASC vs. CPST

OASC is aligned to military standardized tests to help you score well and succeed in the military. The course includes 2 diagnostic tests, 71 lessons, 9 sections of practice questions, and 2 post-assessments for reading comprehension, vocabulary, arithmetic, and algebra skills.

CPST is aligned to the most used placement tests—Accuplacer and COMPASS. The course includes 4 diagnostic tests, 132 lessons, and 3 practice tests for writing, reading comprehension, grammar, arithmetic, algebra, and college-level math skills.
