

QRP Fact Sheet: What We Recycle

The Texas Military Department's Qualified Recycling Program (QRP) recycles a variety of scrap material generated by the department's units and activities.

Corrugated Cardboard

Miscellaneous Plastics

Office and Mixed Paper

Diverting reusable, recyclable material from landfill waste saves the TMD significant disposal costs.

All material sold by the QRP is sold as scrap, priced per pound.

Plastic Bottles and Aluminum Cans

Scrap Metal

Range Debris (brass)

SOLID WASTE & RECYCLING

QRP Fact Sheet: What We Recycle

Now recycling batteries and fluorescent light bulbs from our Recycling Center at Camp Mabry!

EASYPAK 
Recycling Made Easy

Fluorescent Light bulbs

Our organization has been recycling light bulbs for years, thanks to a partnership with lamprecycling.com (EasyPak). This service makes it easy to safely recycle fluorescent lamp tubes. Now you can bring them to the Recycling Center.

call2recycle

We can also accept cell phones (*as long as they are not issued by the G6 or managed by a WTCO*) and their batteries via our partnership with Call2Recycle. This includes:

- Lithium Ion (Li-Ion)
- Small Sealed Lead Acid (SSLA/Pb)
- Nickel Metal Hydride (Ni-MH)
- Nickel Cadmium (Ni-Cd)
- Nickel Zinc (Ni-Zn)

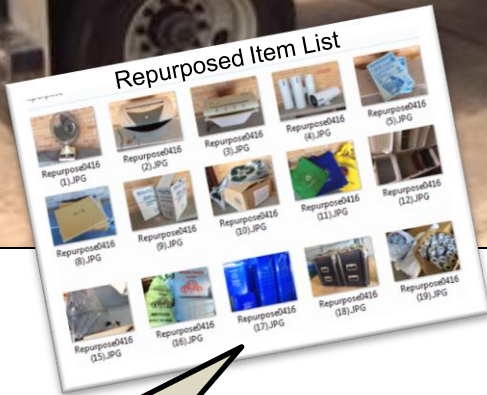

Cell Phones

Cell Phone Batteries

QRP Fact Sheet: What We Recycle

SOLID WASTE & RECYCLING

Recycling scrap is only part of the picture, however. The QRP takes other measures to reduce our solid waste stream by encouraging green procurement, reusing bulk material and repurposing items when possible.

Donated useful items are offered to TMD personnel only

Interested in purchasing recyclable materials? Contact the QRP:
