SUBJECT: (JFTX I14-04) Appointment of Assessable Unit Managers – Army Manager’s Internal Control Program (MICP)

4. Purpose:
   a. To organize, plan, and execute the Texas Army National Guard Managers’ internal Control Process in accordance with AR 11-2 and guidance from other applicable directives.
   b. IAW Army Regulation 11-2, ensure Internal Control responsibilities are correctly identified on your individual support form. Under “Major Performance Objective,” the following statements may be used:

      For SRO: “Ensures compliance with paragraph 1-13, AR 11-2”.
      For AUM: “Ensures compliance with paragraph 1-14, AR 11-2”

5. Responsibility of SRO: Overall responsibility for ensuring implementation of an effective MICP within the organization; designates MICA; oversees preparation of the Annual Statement of Assurance that accurately describes the status of controls in the organization and fully discloses any materials weaknesses and plans for correction.

6. Responsibility of MICA: Identifies training requirements, conducts or arranges training, assists in preparation of 5-Year Plan, provides guidance in preparation of Annual Statement of Assurance, coordinates completion of evaluation, tracks materials weaknesses, and keeps managers informed on internal control issues.

7. Responsibility of AUMs: Ensure their managers are trained and understand their internal control responsibilities, identify their MICP training requirements to the MICA, identify high risk areas within their directorate, develop internal controls to mitigate risk in those areas identified as high risk, develop and update the 5-Year plan for their areas; ensure evaluations are conducted IAW their 5-Year Plan, identify material weaknesses, report material weaknesses upward through the Chain of Command, provide a copy of their MICP 5-Year Plan to the MICA annually or as changes occur to their plan, annually sign DA Form 11-2 stating they have reasonable assurance that controls are in place and working or that they don’t have reasonable assurance, and provide documentation or information supporting the material weaknesses.
