

RFMSS: Fort Hood and TX National Guard

The overall classification for this briefing is **UNCLASSIFIED//FOUO**

RFMSS

There are a couple of minor differences between Fort Hood RFMSS and NG RFMSS:

National Guard (NG)

1. NG posts require a "STRENGTH" – overall throughput of troops on post that will be attending the event.
2. NG Live Fire Ranges are limited to 0730-1700 for Unit Level scheduling. Deviations must be submitted in writing at the time of the request (minimum 90 days). Range Control will update the request upon approval.
3. Use 00:01 and 23:59 (start and end times) for all other facilities in the event.
4. Must request billets, classrooms, DFAC, admins, TAs, and ranges on 1 request.

Fort Hood

1. No "STRENGTH" required on a request.
2. Times of ranges and classrooms are located under the "FACILITY DETAILS" in the 2 Week Calendar of each name, follow tabs to "OPERATIONAL TIMES," and copy accordingly. Times vary for all sorts of activities at FH.
3. You cannot schedule BILLETS from the Fort Hood RFMSS – they have a separate website and contact information. See Fort Hood Range Control for more info.
4. Keep the entire event on 1 request as best as possible (consecutive days together).

You MUST put a "strength" line on all requests, if you do not, your request will be disapproved. For requests with more than 2 days, use 00:01 and 23:59 (buildings and TAs); 0730-1700 (live fire only) for the START and END times. If you do not, it will prompt an error for continuous. Add communications on the tab below to better help Range Control to assist you and your Unit.

Library

Every RFMSS website has their own Library tab on the home screen. The library contains notes, policies, procedures, SOPs, POCs, and useful SCHEDULING information.

If you've had a NG or FTH RFMSS class, please let the Functional Administrator know so we can cross check on our tracker. Access will be granted after approval.
